The Managing Director and Founder of WiseCrest Solutions. With a distinguished career spanning over four decades in technical, managerial, and government sectors, he brings a wealth of discipline, operational excellence

ABOUT TEAM

KALA MORIS

L. Kala Moris is the Director of Operations and Administration at WiseCrest Solutions, bringing a unique blend of financial acumen and strategic leadership to the IT sector

ABOUT TEAM

# GOALS & PHILOSOPHY

## OUR MISSION

As we continue to grow, our focus remains clear: to help businesses reach their crest—the highest level of digital excellence—through wise decisions and intelligent technology.

## OUR PHILOSOPHY

At WiseCrest Solutions, we do not believe in one-size-fits-all technology. Every product, platform, and system we build is carefully architected to meet real-world challenges, adapt to change, and perform reliably at scale. With a strong foundation in innovation and execution, we act not just as a service provider, but as a long-term technology partner.

**THANK YOU, AND WE LOOK FORWARD  
TO WORKING WITH YOU.**

# ANNUAL MAINTENANCE, HOSTING & SUPPORT BUDGET PROPOSAL

## **Movie Ticket Booking & Attendance Management System**

**Prepared For:** WING AUDITORIUM

**Prepared By:** WiseCrestSolutions

**Project:** Movie Ticket Booking, QR Validation, Occupancy Monitoring & Defaulter Management System

**Date:** 11-06-2026

**Prepared By:** WiseCrestSolutions

**Proposal Reference:** WCS-MTBMS-2026-005

## **1. Executive Summary**

This document provides the estimated annual operational budget for hosting, maintenance, support, monitoring, security, and infrastructure management of the Movie Ticket Booking & Attendance Management System.

The objective is to ensure:

- High availability of the platform
- Secure user authentication and booking management
- QR ticket validation and occupancy tracking
- Automated no-show and defaulter management
- Ongoing technical support and enhancements
- Infrastructure monitoring and backup management

## 2. Project Overview

The system includes:

### User Module

- Registration & Login (OTP Based)
- Show Selection
- Seat Booking
- QR Ticket Generation
- Booking History

### Manager Module

- QR Ticket Scanning
- Live Occupancy Monitoring
- On-Spot Booking
- User Unblocking Requests

### Admin Module

- Defaulter Monitoring
- User Unblocking
- No-Show Reports
- Dependency & Configuration Updates

### Automated Services

- Defaulter Engine
- Attendance Validation
- Booking Verification
- User Blocking Rules
- Notification Services

### 3. Infrastructure Requirement

The production environment requires:

| Component          | Purpose                       |
|--------------------|-------------------------------|
| Application Server | Host Backend APIs             |
| Database Server    | Store User & Booking Data     |
| Storage Service    | QR Images & Documents         |
| SSL Certificate    | Secure HTTPS Access           |
| Domain             | Public Access                 |
| Monitoring Service | Health & Performance Tracking |
| Backup Service     | Data Recovery                 |
| Email/SMS Gateway  | OTP & Notifications           |

## 4. Annual Hosting Cost Estimate

### Hosting Infrastructure Options

#### Option A – Basic Deployment (4 GB VPS)

**Suitable for:**

- Initial deployment
- Single station/unit
- Moderate user base

| Item                                                  | Annual Cost (INR) |
|-------------------------------------------------------|-------------------|
| VPS Hosting (4 GB RAM)                                | ₹10,000           |
| Domain Renewal (Cloudflare)                           | ₹1,500            |
| Offsite Backup Storage                                | ₹2,500            |
| SSL Certificate                                       | Included          |
| Monitoring & Health Checks                            | ₹1,000            |
| Server Administration & Renewal Management            | ₹3,000            |
| Backup Verification & Recovery Support                | ₹2,000            |
| Infrastructure Documentation & Maintenance            | ₹2,000            |
| <b>Total Annual Hosting Cost</b>                      | <b>₹22,000</b>    |
| <b>Budgetary Provision / Contingency</b>              | <b>₹3,000</b>     |
| <b>Total Annual Hosting &amp; Infrastructure Cost</b> | <b>₹25,000</b>    |

## **5. Annual Application Maintenance**

### **Included Services**

#### **Corrective Maintenance**

- Bug fixes
- Error resolution
- Performance improvements

#### **Preventive Maintenance**

- Security patch updates
- Dependency updates
- Database optimization
- Server health checks

#### **Operational Support**

- Deployment support
- Monitoring
- Log analysis
- Backup verification

#### **User Assistance**

- Admin support
- Technical guidance
- Minor configuration changes

## 6. Third-Party Services (If Applicable)

| Service                 | Estimated Annual Cost     |
|-------------------------|---------------------------|
| SMS OTP Gateway         | As per usage              |
| WhatsApp Notifications  | As per usage              |
| Email Service           | As per usage              |
| Payment Gateway Charges | As per transaction volume |
| CDN Service             | Optional                  |
| Analytics Tools         | Optional                  |

Third-party charges are billed separately based on actual consumption

## 7. Security & Backup Management

Included within maintenance:

- Daily Database Backup
- Weekly Full Backup
- SSL Management
- Security Patch Management
- Access Control Reviews
- Incident Response Support

## 8. Assumptions

- Costs are based on expected user volume.
- Pricing may vary depending on final cloud provider.
- Third-party charges are not included unless specified.
- Major feature additions are considered separate change requests.
- Infrastructure upgrades due to increased traffic are billed separately.

## 9. Exclusions

**The following are not included unless specifically mentioned:**

- New modules
- Mobile applications
- Major UI redesign
- Third-party integrations not defined in scope
- Hardware procurement
- SMS/WhatsApp usage charges
- Payment gateway transaction fees
